

GRID 2026

Global Research &
Instructional Dialogue

**Where scholarship meets practice,
and knowledge becomes the
architecture of progress.**

| | |
|--|--|
| Call for Papers 24 April 2026 | Acceptance Notification 12 August 2026 |
| Registration Deadline 5 September 2026 | Conference Dates 26–27 September 2026 |

About the Conference

A Structured Knowledge Network for Academia & Industry

Conferences in academia are more than events – they are the connective tissue of intellectual communities. They are where ideas are challenged, refined, and elevated. The KSBL GRID Conference 2026 is built on this conviction.

GRID – Global Research & Instructional Dialogue – is KSBL's inaugural international academic conference, designed to bring together case writers, academic researchers, business professionals, and faculty in a collaborative, high-quality exchange of original research, case studies, and innovative pedagogical approaches.

As a thought leader in contextualized and experiential business education, KSBL is uniquely positioned to host a conference that bridges the gap between classroom learning and real-world application.

The GRID Conference reflects our mission: to create a learning environment that builds character, strengthens competence, and cultivates conduct so individuals can contribute to collective progress.

The name GRID is intentional. A grid is a structured network – organized, interconnected, and purposeful. It is the ideal metaphor for what we seek to build: a lattice of knowledge that spans disciplines, geographies, and institutions.

Each letter reflects a distinct dimension of the conference's purpose. Research anchors us in scholarly rigor. Instructional grounds us in pedagogy and case-based learning. Dialogue opens the space for exchange, debate, and discovery. And the word Global reminds us that the conversations we seek are not confined to any single context.

Global

An international platform that invites scholars, educators, and practitioners from across geographies to connect, collaborate, and contribute to a shared body of knowledge.

Research

Peer-reviewed scholarly content grounded in original inquiry, empirical work, and academic rigour across business and management disciplines.

Instructional

Case studies and teaching materials that bridge theory and practice, driving innovative approaches to business education.

Dialogue

International academic and industry exchange – connecting diverse minds, perspectives, and institutions in meaningful conversation.

Ten Disciplines. One Conversation.

The GRID Conference welcomes original research papers and case studies across ten thematic tracks. Submissions may focus on any track, and interdisciplinary work that spans multiple areas is strongly encouraged.

Track
01

Fintech for Sustainable Growth

Risk management, digital finance, and responsible investment strategies for emerging and established economies.

Track
02

Digital Marketing & Brand Innovation

Transforming customer engagement through data-driven approaches, brand sustainability, and global market dynamics.

Track
03

Leadership & Organizational Excellence

Innovation, strategy, and sustainable management practices that drive organizational transformation and resilience.

Track
04

Accounting for Transparency & Value

Innovations in reporting, audit, and ethical practice that advance integrity and accountability in financial governance.

Track
05

Data-Driven Decision Making

Analytics, business intelligence, and insight generation for smarter, faster, and more responsible organizational decisions.

Track
06

AI & Emerging Technologies

Innovation, ethics, and industry transformation in the age of artificial intelligence and next-generation digital tools.

Track
07

Entrepreneurship & Inclusive Growth

Startups, SMEs, and emerging ventures as engines of economic inclusion, innovation, and community development.

Track
08

Global Economic Challenges & Opportunities

Policy, innovation, and inclusive frameworks for navigating macro-economic complexity in a multipolar world.

Track
09

Sustainable & Inclusive Business

Financial literacy, gender equity, and responsible growth models for emerging economies and transforming organizations.

Track
10

Character-Driven Leadership

Truth, trust, humility, integrity, and sabr as foundations for ethical and sustainable organizational excellence — KSBL's signature track.
